Class work

Team Project Session 2 (6 month in 2017) : Website creation based
on a concept. My job was to work with the team on the conception,
create the SQL database and the website. THis one is designed for
smartphone, working in HTML, CSS, JS and PHP.

Team Project with sponsor Session 3 (6 month in 2017) :
Answer for a real website Request. We had to understand the needs of
our sponsor and realise the website. My job was to be the team leader
and the developer, i choosed the MCD and a plugin, created the theme,
deployed the website and translated the plugin.

Interactive video : Team writing, realising, going up a video based on
youtube linking interactivity.

For more projects, see my portfolio.

Other experience

Temporary operator (July - august 2017) at Peugeot Plants
Montbéliard France.
